

## AMA Guides training resources

---

Find a list of organizations offering training for the latest updates for the *AMA Guides Sixth Edition*, covering the spine, musculoskeletal, and nervous system content. Also access training modules that offer CME and information on training for previous AMA Guides® editions.

## Upcoming courses

**Nov. 9 | Virtual**

### **26th Annual American Academy of Orthopaedic Surgeons (AAOS): Workers' Compensation and Musculoskeletal Injuries**

Join AAOS for the 26th Annual Workers' Compensation and Musculoskeletal Injuries course, led by Mark Melhorn, MD. This virtual event features live-streamed lectures, interactive panels and expert-led discussions with new faculty and topics. Attendees will gain practical insights on causation, diagnosis and treatment options, along with strategies for utilization review, causation analysis, report writing, medical liability, depositions, and effective patient communication—all aimed at enhancing patient outcomes. Learn more.
