

COVID-19 vaccines

COVID-19 vaccines

The AMA recognizes the critical importance of scientific integrity, transparency, and public trust as we fight to contain the global spread of COVID-19 and plan for the approval, authorization, distribution and administration of COVID-19 vaccines.

COVID-19 Public Education Campaign resources

The HHS COVID-19 "We Can Do This" public education campaign is a national initiative to increase confidence in COVID-19 vaccines and reinforce basic prevention measures. Access the campaign handouts and posters:

1. FAQ handout (PDF)
 2. Know Your Risk poster (PDF)
 3. Timing poster (PDF)
 4. Get Care handout (PDF)
 5. Treatment for Patients handout (PDF)
 6. Prevent Getting Sick poster (PDF)
 7. When to Get Medical Care poster (PDF)

AMA news and media coverage

COVID-19 vaccine & booster FAQs

To promote factual information on COVID-19, the AMA provides a number of resources for physicians on background and actions, evidence-based messaging guidance and best practices for consideration

in external communications on COVID-19 vaccine topics.

The AMA published resources on what patients need to know regarding frequently asked questions on COVID-19 vaccines.

Vaccine script for patient inquiries

AMA has developed a template to assist physicians and practice staff in responding to the expected high volume of patient inquiries about COVID-19 vaccinations. It should be modified to reflect the circumstances in your practice, community, county and state. The script can be updated as vaccine distribution and administration procedures and protocols change.

COVID-19 vaccine topics

Education on COVID-19 vaccines

COVID-19 spreads rapidly. To fight and contain the pandemic, physicians need to just as rapidly learn about immunization, the fast development, authorization, distribution plans, safety and administration of the COVID-19 vaccines. Stay informed with evidence-based education and contribute to build public trust.

The National Academies of Sciences, Engineering, and Medicine

In response to a request from the National Institutes of Health (NIH) and Centers for Disease Control and Prevention (CDC), the National Academies have formed a committee that will produce a consensus study to assist policymakers in the U.S. and global health communities in planning for equitable allocation of vaccines against COVID-19.

"It's Up to You" COVID-19 vaccine education initiative

To further advance COVID-19 vaccine education and boost confidence in the safety and effectiveness of vaccines authorized by the FDA, the AMA has worked with the Ad Council and the COVID Collaborative, a coalition of the nation's experts in health, education and the economy, to launch "It's Up to You."
